2021 June LFN Developer & Testing Forum

Created by Denis; last modified by Ramy Fou about an hour ago

Welcome to the LFN Developer & Testing Forum

Information:

The LFN Developer & Testing Forum is being held over four days, June 7th - 10th, 2021. Once again we will be virtually gathering the LFN project technical communities to progress our releases; discuss project architecture, direction, and integration points; and further innovate through the open source networking stack. We will use a combination of online tools to create a productive and interactive virtual meeting environment. The event is free of cost and registration is required.

Update on Jira - Louis

On our wiki we have a link to Jira on the left (shortcuts). You would log in with your LF ID. We need more discussion on how we will use all this.

Vote for Telemetry Service

From Jonas Arndt (HPE) to Everyone:

Vote for Telemetry service. As a first step we will expose only the existing metric reports from different vendors and allow clients to subscribe to them. +1 yes, -1 no, 0 abstain

Jonas (HPE) +1

From Alexander Vul to Everyone:

Intel +1

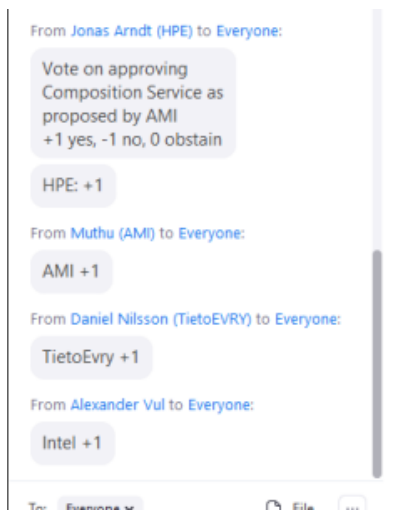

From Daniel Nilsson (TietoEVRY) to Everyone:

TietoEvry +1

From Muthu (AMI) to Everyone:

AMI +1

Vote for Composition Service

The screenshot shows a chat window with a scroll bar on the right. The content is as follows:

From Jonas Arndt (HPE) to Everyone:
Vote on approving Composition Service as proposed by AMI
+1 yes, -1 no, 0 abstain
HPE: +1

From Muthu (AMI) to Everyone:
AMI +1

From Daniel Nilsson (TietoEVRY) to Everyone:
TietoEvry +1

From Alexander Vul to Everyone:
Intel +1

At the bottom of the chat window, there is a header bar with the text "To: Everyone" and a "File" button.
