Recording

Agenda

- Start the Recording
- We will start by mentioning the project's Antitrust Policy, which you can find linked from the LF and project websites. The policy is important where multiple companies, including potential industry competitors, are participating in meetings. Please review and if you have any questions, please contact your company legal counsel. Members of the LF may contact Andrew Updegrove at the firm Gesmer Updegrove LLP, which provides legal counsel to the LF.
 - [Antitrust Policy](#)

Minutes

Developer & Testing Forum

- January 10-13th, 2022
- [Topic Proposals](#)
 - Topics Due by 03 Dec 2021
- [Registration](#) (Required by free)
- Program Committee
 - Need a volunteer to help schedule topic proposals and coordinate any cross-community discussions.
- We need a description of participation in the Developer & Testing Forum
 - ODIM coordinates with other key SDOs and open source communities, with a focus on automation, simplification, consistency, and interoperability of COTS and OSS infrastructure management solutions resulting in accelerating infrastructure deployments across segments while lowering operational complexity and cost

Meeting logistics

- [Casey Cain](#) noted how the ODIM meeting often runs over and does not have the time to discuss important community topics. There is also the overlap with the TAC meeting that restricts the ability for other cross-community engagement. Casey strongly encourages the ODIM community to adjust the meeting time. A doodle poll has been created with suggestions.
 - https://doodle.com/poll/y3syqiz9g7qbrugg?utm_source=poll&utm_medium=link
 - Please update the survey before the next TSC meeting.

TSC discussions

- [Alexander Vul](#) Proposed that we review <https://portal.3gpp.org/desktopmodules/Specifications/SpecificationDetails.aspx?specificationId=3416>
 - 3GPP SA5 Management & Orchestration Architecture
- [Bob Monkman](#) asked that we share the update HW Infrastructure Function Areas doc from a drive location that everyone can reach.
 - <https://docs.google.com/presentation/d/1cKhBriBlvLP7hY4NrmGSfAuKmdSDgVc1MQjkuNgcT4E/edit?usp=sharing>
 - Updated document. Please use this one going forward.
 - Looking to update functional areas outside Redfish services & schemas.
