NEWS! LFN decision: ODIM is officially a Sandbox project!

- ACTION ITEM: Louis will spin up Jira by end of this week. (instance under LFNetwork.org)
    - Will send the team the links.
    - Team should review the specifics of the Jira configuration
    - Next:
        - Have an internal discussion (in the weekly meeting) – such as EPICS, User Stories, reports
        - Then Susan can take Action Item to document the ODIM processes within Jira.

- Kenny Paul is program manager for ONAP
