	William Caban	Redhat

Proposed Agenda

- Start recording
- [LFN Antitrust Policy](#)
- [LFN Developer and Testing Summit - 2021-06](#)
- 5G Super Blueprint updated

Notes

LFN developer and testing summit, June 6

- Schedule: <https://teamup.com/ksgw6qzqcmg9zbzsfq?date=2021-06-07&view=md4>
- June event registration page: <https://community.lfnetworking.org/e/mwxek9/>

ODIM sessions:

- Tuesday at 10:00 (time zone?), ODIM: What's New and 5G Super Blueprint (Jonas)
- Thursday at 9:30, BMC Emulator Demo (Rafal)

5G Super Blueprint team

Daniel gave the presentation to the 5G Super Blueprint team – well received.

Short update to the 5G Super Blueprint team, no major comments. Q on OEM and who is supporting it. Overall, well received. Good to go for next week's presentation.

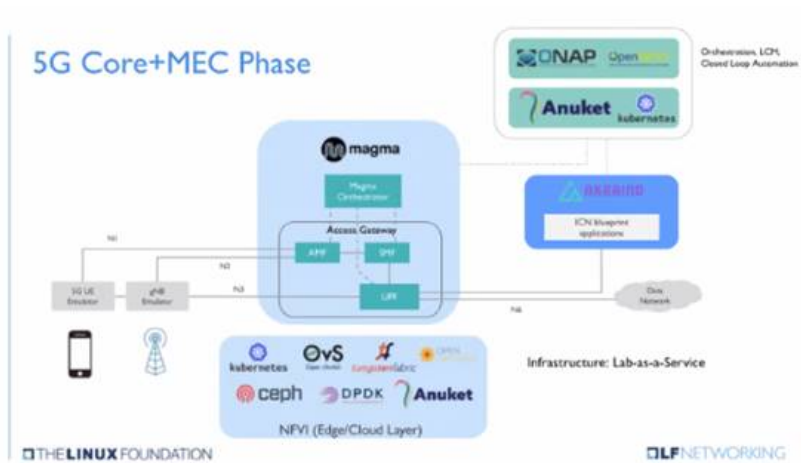

Daniel will send out the slides showing where ODIM fits in.

Louis shared link to 5G Blueprint slides: <https://wiki.lfnetworking.org/display/LN/5G+Super+Blueprint+Phases>

Alex and Louis – discussion about 5G Blueprint and Anuket. Alex wants to clarify where ODIM plays. Noted this is not architecturally correct diagram. Discussion about how to get ODIM added.

Daniel – get ODIM into overall Super Blueprint picture, then this, then demos. Lots of discussion. Louis's comment – need real architectural diagrams (hard to put ODIM into this....)

Alex wants box lower right HW Infra Mgmt.

Recording
